

ANKIT PAUL

FULL-STACK DEVELOPER

Bhubaneswar, Odisha, India | paulankit100@gmail.com | github.com/ankit-tacho

SUMMARY

Full-Stack JavaScript developer with strong experience in Node.js, React, MERN stack, and AI-powered application development. Skilled at building scalable backend services, integrating LLMs into real products, designing structured datasets, extracting insights from unstructured content, and optimizing AI-driven workflows. Passionate about working on cutting-edge AI systems, model evaluation, and building reasoning-focused features.

TECHNICAL SKILLS

Languages: JavaScript	AI/LLM Tools: OpenAI GPT-4o/5,	Other: REST APIs, Web Scraping
Backend: Node.js, Express.js	Prompt Engineering, Data Extraction,	(Cheerio, Axios), Error Handling,
Frontend: React.js, Next.js	JSON structuring, AI Content	Modular Architecture, Clean
Databases: MongoDB, MySql	Generation, Evaluation Logic	Code, Git, Docker (basic)

PROFESSIONAL EXPERIENCE

TachoMind — Junior Software Developer

Nov 2024 - Present

- Built AI-powered features: brand extraction, caption generation, and social-inbox integrations.
- Developed APIs for brand creation, enrichment, image import, post topics, and workspace management.
- Extracted brand metadata (colors, fonts, social handles, industry, audience insights).
- Integrated GPT models for structured JSON enrichment with sanitization and temperature control.
- Built website scraping pipelines using Cheerio + Axios for structured data extraction.
- Improved reliability with custom error handling, optimized media import, and video/image detection logic.
- Refactored major modules for clarity and performance while collaborating with product and frontend teams.

EDUCATION

Master of Computer Applications (MCA)	2022 – 2024
GITA Autonomous College, Bhubaneswar	
• CGPA: 8.96	

Bachelor of Science (B.Sc)	2018 – 2021
Udayanath (Autonomous) College of Science & Technology, Adaspur, Cuttack	
• CGPA: 7.2	

ADDITIONAL INFORMATION

- Basic knowledge of Docker and containerized workflows
- Familiarity with test planning and quality assurance practices
- Strong problem-solving and debugging abilities
- Skilled in writing clean, maintainable, and scalable code
- Excellent written communication skills in English
- Comfortable working with PST time-zone overlap
